VISHAL SHINDE

App Developer | Android & Java | Passionate about Building Impactful Mobile Apps

Pune Division, Maharashtra, India

Summary

Vishal Shinde | Tech Enthusiast | BCA Graduate | Aspiring Software & App Developer | Project Innovator

Hi, I'm Vishal! I have completed my Bachelor's in Computer Applications (BCA) from MIT Art's commerce and science college, Alandi affiliated with Savitribai Phule Pune University, combining my love for technology with a strong foundation in management. With a Science background in 12th grade, I bring a multidisciplinary approach to problem-solving and innovation.

Technical Highlights:

Project Expertise: Successfully developed projects like 'Leaf Disease Detection' and the 'Crime Reporting and Investigation System'—leveraging technology to solve real-world challenges.

Software & App Development: Skilled in building applications for both web and mobile platforms, from concept to deployment.

Programming Knowledge: Proficient in Python, PHP, and Java, with a strong interest in database management and AI integration.

What Drives Me?
I thrive at the intersection of creativity and functionality. Whether it’s developing applications that improve lives or exploring new technologies to stay ahead in the digital world, I’m always seeking ways to innovate and contribute meaningfully.

Future Goals:

Master advanced software and mobile app development techniques.

Explore deeper applications of AI in everyday life.

Collaborate with like-minded professionals to drive impactful projects.

Beyond Tech:
When I’m not coding, you’ll find me exploring the latest tech trends, helping peers with their projects, or engaging in creative outlets.

Let’s connect and collaborate on projects that make a difference!

Experience

Reliance ResQ
Data Analyst
April 2026 - May 2026 (2 months)
Pune City, Maharashtra, India

SysInsight Solutions
App Developer
August 2025 - November 2025 (4 months)
Pune District, Maharashtra, India

"Passionate about building impactful mobile experiences. Excited to learn, grow, and contribute to production-level apps. Currently sharpening my skills in API integration, UI refinement, and Android lifecycle management."
